Dear Patients of Griffin Ob-Gyn Clinic,

After practicing medicine for over 34 years, I have decided to retire. The desire to spend more time with my family, along with other personal reasons, have led me to this decision. So, as of December 31, 2024, I will conclude my career as a physician. It has been my utmost honor and blessing to have served this community for so long. I can honestly say that, despite the long hours, I am thankful that I chose the career path that I did. I have enjoyed knowing each of you and appreciate your willingness to put your trust in me.

When I retire, you can easily transfer your care to another provider at Griffin Ob-Gyn Clinic. I have full confidence that you will receive excellent care should you decide to remain with our practice. However, if you choose to move to a new group, your medical records can easily be transferred after completion of an authorization form. You may contact our office for assistance.

This decision has not been easy; I feel both elated and sad. Life moves on and I feel confident that it is time for me to retire. I look forward to more time with family, especially my 3 grandchildren, as well as the trips my wife and I have planned. I will miss our amazing office staff and the many wonderful patients whom I have had the privilege of serving. It has been a blessing to have been able to practice with my father and the other fine physicians and providers at Griffin Ob-Gyn. I am thankful for all of the support, advice, and friendship which they have offered me over the years, so I know I leave you in good hands!

God Bless and thank you again!

Respectfully,

A handwritten signature in dark ink, appearing to read "B. Krepps M.D.", written in a cursive style.

Bryan K. Krepps, M.D.
